

STEP 1:

Open the following link to create a Neo4j sandbox

<https://neo4j.com/sandbox-v2/>

STEP 2:

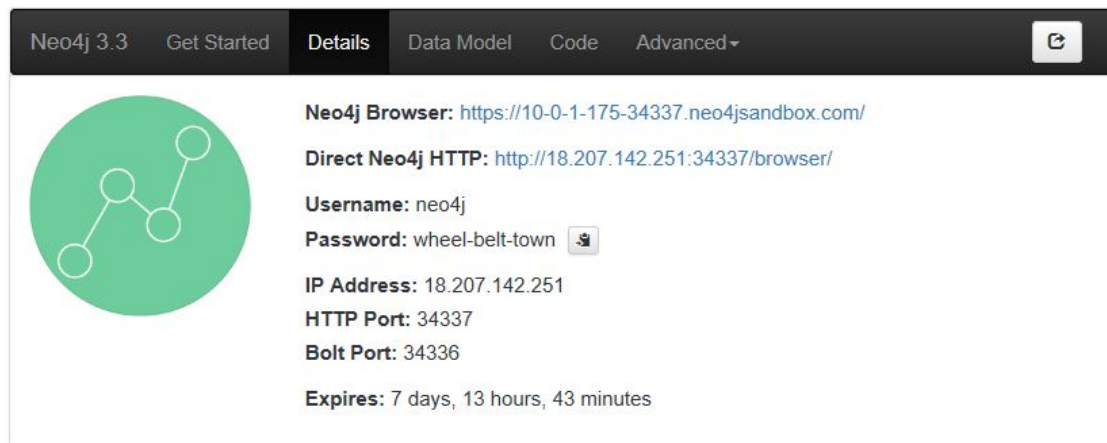

Login using an account or create a new account

STEP 3:

Then select a blank Sandbox and start it.

Toggle to the details tab and note down the details.

Your Current Sandboxes

STEP 4:

Copy the direct http browser link and password and replace the details in the file application.py

```
graph = Graph("http://18.207.142.251:34337/browser/", password="wheel-belt-town")
```

STEP 5:

The next step change the link in the file ./templates/result.html

```
<ul><a href='https://10-0-1-175-34337.neo4jsandbox.com/'target='_blank'> Click Here  
to open Neo4j Browser</a></ul>
```

Also change these details so that anyone can access the graph as the graph needs logging in to view and access.

```
<li><p>host :bolt://ws-10-0-1-175-34336.neo4jsandbox.com:443</p></li>  
<li><p>Neo4j Graph Username: neo4j</p></li>  
<li><p>Password: wheel-belt-town</p></li>  
</ul>
```
